## III. TRAINING INSTITUTE

### 1. GENERAL INFORMATION

#### 1) About Soongsil University

##### **The country's first modern University**

Soongsil is proud to have first brought modern education to Korea. In 1897, Dr. W. M. Baird, an American missionary, founded Soongsil Hakdang in Pyeongyang with 'truth and service' as its educational mission, and installed an undergraduate program to create Soongsil University, the first modern university of Korea.

##### **The University that safeguarded the self-respect of the nation**

During the Japanese colonialist rule, Soongsil made the decision to close the school, protesting forced worship at the Shinto shrine in order to maintain national pride. Among the thirty-three national leaders who signed the Declaration of Independence were the names of proud Soongsilians such as Kim Chang-jun, Park Hui-do, and others. Soongsilians have always participated in national movements such as the protest against the Eulsa Restriction Treaty, the Korean People's Society Case, the March 1st Independence Movement, and the Gwangju Student Independence Movement. Soongsil was born again in Seoul in 1954 and has since continued to evolve.

##### **The endlessly challenging University**

Soongsil's history is checkered with many achievements. With its modern music education program, the first of its kind introduced in Korea, Soongsil has issued great musicians like Hyeon Jeh-myeong and Kim

Dong-jin, among others, while with its Computer Science Department, the first of its kind in the country, the University laid the cornerstone of the local IT industry. It is also Soongsil's achievement that the Graduate School of Small and Medium Businesses and the Graduate School of Information Science were established to improve the competitiveness of industrial-academic cooperation and information.

## 2. ACCOMMODATION

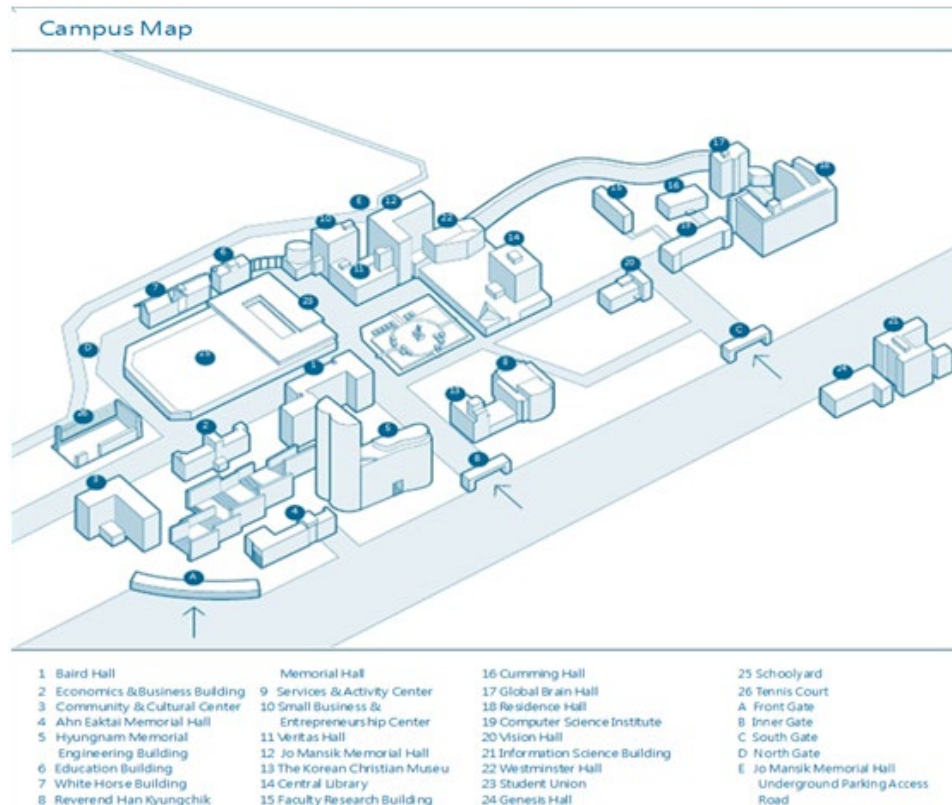

- Opened in March 2010, Soongsil Residence Hall was built to support students' academic achievements by providing them with pleasant living conditions and convenient facilities and to inspire its residents to expand their basic awareness of community living.
- Soongsil Residence Hall, which has 2 basement levels and is 12 stories high, provides its services by accommodating the students' needs through various types of rooms such as single, double or quadruple occupancy, and guest houses.

- Each room works to guarantee the privacy of its residents as much as possible. Residents can also enjoy maximum convenience with several on-site facilities; a gym, a multi-purpose room, a study room, a cafeteria, a convenient store, laundry facilities and an on-site post office. The dormitory does not only introduce a living environment suitable for the ubiquitous era by providing high-speed and wireless internet connection as a standard, but also secures a safe and pleasant living for its residents through a state-of-the-art security system.
- In the case of KOICA–SSU Master's Degree Program in ICT Techno Policy, two students share a room in the dormitory located on Soongsil University campus. The kitchen facilities in two rooms of the dormitory building can be shared by participating students to cook their meals sometimes. Only the two dormitory rooms have two beds and a kitchen respectively; the remaining rooms have two beds without a kitchen.
- **Living Conditions**
  - In the case of KOICA–SSU Master's Degree Program in ICT Techno Policy, 2 students share a room
  - Furniture: Beds, Desks, Bookshelves, Closets in each room

- Convenience Facilities: Cafeteria, Convenience store, home-delivery service, multi-purpose room, study room, laundries (separate for men and women), and fitness center.
