

International Donors Conference, 19 November 2005, Islamabad

Donors Conference

- More than 80 countries and international agencies participated in the Donors' Conference.
- 28 Ministers attended the Conference.
- This was the largest ever international gathering ever held in Pakistan. Countries from all regions of the world attended Islamabad.
- It was an unprecedented Conference as it brought together countries, international agencies, international funding institutions and private corporations from all over the world to assist Pakistan.
- The Islamabad Conference was a larger event than the international conference that was held for the Tsunami disaster in terms of the diversity of participating countries and the level of attendance.
- The Conference was a clear manifestation of global solidarity. The support Pakistan has received from the international community is impressive and is reflective of Pakistan's enhanced image and standing in the comity of nations.
